

Donegal Education Centre

Whole School Approach: Digital Portfolios

*It is recommended that schools have
a strategic whole school approach to
Digital Portfolios
(JCT & Digital Strategy)*

To support school leaders and teachers in this, Donegal Education Centre has organised a professional learning day on **Monday, May 27th**

Key learning will be shared on the day from two Donegal schools facilitated by Siobhan O'Sullivan and Sinead O'Sullivan (PDST). Both Siobhan & Sinead currently assist schools in embedding digital technologies to enhance teaching, learning and assessment.

One of the indicators of success in the 2018 Digital Strategy for Schools Action Plan is that "all students have a digital portfolio with self-created content across the entire curriculum and a recognised capacity in discerning the ethical use of digital technologies".

Participants will explore the rationale for, and benefits of using Digital Portfolios, will share key learning gained for successful implementation of Digital Portfolios in schools and hear the experiences of some of the schools involved.

Programme	
09.45 - 10.00	Registration and welcome
10.00 - 11.00	An Introduction to Digital Portfolios
11.15 - 12.15	Formative Assessment using Digital Portfolios
12.15 - 13.00	Planning for Change through Digital Portfolios
13.45 - 15.00	Digital Portfolios in Action - experiences of schools involved in the PDST Digital Portfolio Initiative
