

Motivating Children as Readers and Writers

What does teaching according to the rationale and aims of the Primary Language Curriculum look like in a classroom? How can we ensure that all pupils are motivated and engaged as listeners, speakers, readers and writers?

This two-part workshop will explore the fundamentals for fostering motivation and engagement in literacy development: choice, time, social interactions, a diverse range of texts, effective feedback and explicit instruction. Participants will leave with practical ways to create exciting and engaging literacy learning environments for all... including the teacher!
